

DIGITAL P2 HEMISPHERE

Our Digital Hemispheres are a 180-degree display available in many different sizes and in three different levels of resolution: p2, p2.5, and p3. These hemispheres can be mounted in various ways, including stand, ceiling, and wall mount. With built-in controls, we ensure a seamless installation process.

BUILT-IN-CONTROL

Controlling your sphere has never been more intuitive. With our optional purpose-built i7 embedded touch PC is mounted to the sphere processor. This custom-designed mount allows for quick access and safe storage.

*Processor is included. The embedded PC may be added for \$2,499

RESOLUTIONS

P2 Resolution

CLEAR & COLORFUL

P2.5 Resolution

GREAT FOR LESS DETAILED IMAGES

P3 Resolution

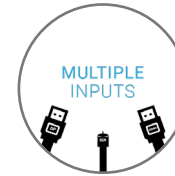

CLEAR IMAGES LESS POWER SUPPLY NEEDED
